MOHD ANAS

Greater Noida, India | mohdanas13215@email.com | +91 7983658332 linkedin.com/mohd-anas7

PROFESSIONAL SUMMARY

Aspiring Data Analyst with strong analytical and problem-solving skills, hands-on experience in data analysis, visualization, and business insights. Adept at translating data into actionable recommendations to support strategic decision-making.

PROJECTS

Laptop Price Prediction
Developed a machine learning model to predict laptop prices based on hardware specifications such as brand, processor, RAM, storage, and GPU

- Performed data cleaning, preprocessing, and feature engineering on raw datasets.
- Trained and evaluated regression models to improve prediction accuracy.
- Implemented the project using Python and machine learning libraries like Pandas, NumPy, and Scikit-learn.

Movie Recommender System
Built a content-based movie recommender system that suggests similar movies based on user-selected titles using textual metadata such as genres, cast, and overview.

- Performed data preprocessing and feature extraction.
- Implemented similarity scoring using cosine similarity for accurate recommendations.
- Designed an intuitive Streamlit interface for seamless user interaction.
- Optimized model performance to reduce response time and improve recommendation quality.

EDUCATION

Bachelor of Technology in Data Science — **CGPA - 7.59**
Galgotias College of Engineering & Technology — 2024 – 2027

Diploma in Electrical & Instrumentation Engineering — **CGPA - 9.12**
University Polytechnic (AMU) — 2021 – 2024

SKILLS

Programming Languages: Python, SQL, Excel
Data Science & ML: Machine Learning, Statistics, Probability, Data Analysis, Feature Engineering
Libraries & Frameworks: Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn, BeautifulSoup
Tools: Jupyter Notebook, Google Colab, VS Code, Deployment Tools

CERTIFICATIONS

- Scaler SQL for Beginners
